USER STORY

USER STORY	As a fruit shop owner I have an idea to develop my business by delivering the fruits to their door step so I want an web page for letting the customers to order fruits and get delivered to their door step in a safer way so I approached team COSMOS to develop web page which displays the fruits which are in stock and it's price and finally to display shop's mail id and their phone number so that my business can be developed.
ACCEPTANCE CRITERIA:	Our project Begun with a idea to make a e-commerce website to sell Fruits for our Client in a user-Friendly way to order fruits and get delivered to their doorstep. So, we planned a meeting with our team and the client and finalized everyone's opinion and finally developed an idea. We asked enough time for completing the project(2 days) When we started in the mid we faced some difficulties and we sorted in a quick time and moved on. Then we finally Developed the web page which satisfied our client and we planned a demo session with some regular customers of the client we also got some feedbacks and included in it and we finally launched the web page as per our client's wish.
